### HALL MCALLISTER DYING.

HE WAS A GREAT LAWYER AND THE BEST POWER AND WHIST PLAYER ON THE PACIFIC COAST.

San Francisco, Nov. 29 (Special).—From good au-thority it is learned that Hall McAllister, who came near dying in New-York about a month ago on his re-turn from Europe, is now lying in a hopeless condition at his suburban villa near San Rafael. The change from the East to this climate seemed to do him good for a few days, but he had a speedy relapse and has en losing strength ever since.

There is no trace of paresis or other brain disease was at first reported, but the complaint seems to be a general collapse of physical force and nervous energy, due to several years of prolonged and excessive brain work without vacation. Mr. McAllister's only recreation for many years has been card play-ing, and in poker and whist he was regarded as the champion of the Coast. For twenty years he has been leader of the bar in this city and had charge of great cases that brought him in a large income

### INCIDENTS IN SOCIETY.

Thanksgiving Day in town was not marked by any important social events, there being for the greater part family dinners. A number of people went to Tuxede Park for a subscription dinner of fifty, which was served in the large dining-room at a horseshoo table. The table was handsomely decorated and the menu was such a one as Tuxedo Park is noted for. Among those present were Mr. and Mrs. T. B. Baldwin, Mr. and Mrs. Edward Kemeys, Mr. and Mrs. F. Z. Carley, Mr. and Mrs. R. M. Hunt, jr., Miss arley, Mr. and Mrs. James L. Breese, Miss Breese Alfonso de Navarro, Duncan Cameron, Lorillard Ronalds, George Ronalds, Mr. and Mrs. W. W. Cryder, Miss Cryder, James Brown Potter, John P. Kings

ford, Mr. and Mrs. Fred Halsey. A dance followed. Mrs. J. P. Robinson, jr., of No. 30 Fifth-ave., has recalled her cards for a tea announced for Saturday, owing to the sudden death of Mrs. Jeremiah Potter on, of Brooklyn.

There was a small dance at the Country Club, Pelam, on Wednesday evening, which was somewhat interfered with owing to the opening of the opera John C. Furman assumed the responsibility of the affair and there were represented most of the families who live at Pelham during the summer. A lively german was led by H. N. Potter. Among those esent were Mr. and Mrs. J. M. Waterbury, Mr. and Mrs. Dwight Collier, Mr. and Mrs. Marion Story, Mr. and Mrs. Harry Coster, Miss Coster, Mr. and Mrs. E. C. Potter, Colonel and Mrs. De Lancey Kane, the Misses Isolin and the Misses Sands. The military band from David's Island played for dancing.

Mrs. J. W. Wentworth gave a dinner for Benjamin Constant, the artist, at her residence, No. 170 West Fifty-ninth-st., last evening. Among the guests pres ent were Mrs. Constant, wife of the artist, Richard Hunt, the architect, General di Cesnola, Mr. and Mrs. Hildreth Field. The menu cards were unique, and were each indicative of the artistic callings of the

## GEN. PALMER TALKS SOME MORE.

HE ANSWERS SOME CRITICISMS ON HIS ACTION IN LEAVING THE GRAND ARMY.

Chicago, Nov. 29 .- A dispatch from Springfield, The feeling among Democratic soldiers Ills., says: and friends of General Palmer, in regard to his withdrawal from the Grand Army of the Republic, has been intensified by the reported interviews with various members of that organization, among others Messrs. Healy and Scribner, of Chicago. Ceneral

Palmer last evening said:
"I have read the interviews and have received letters on the same subject from Ohio, Indiana, Illinois, and other States. Many of the letter-writers approve what they suppose I have done, and others stly anonymous writers, abuse and denounce me Some propose the organization of ex-soldiers when circumstances shall show it to be necessary. Exsoldiers can take their places with other citizens to

discharge their social and political duties like freemen. "The interviews published furnish all the evidence that can be required of the well-understood fact that the Grand Army organization is political in its tendencies and an organized adjunct to the Republean

"That the professional soldiers and Republican politicians succeeded in convincing some soldiers that Mr. Cleveland was their enemy was probably true, what interest the soldiers have that differs from the interest of other citizens is too hard to comprehend. No man of truth or sense will say that Mr. Cleveland ever abused the soldiers or is their enemy. Colonel Wiley Scribner is a Chicago Republican office holder. He says my withdrawal from the Grand Army will burt me as much as my withdrawal from the Army did. The suggestion that I disobeyed an Sherman during an engag to General Sherman as it is to me. The fact is that I was relieved of the command of my corps after the question of rank was waived by me, and upon my own application to General Thomas, who approved of my conduct and was my warm friend until his death. After this transaction I was assigned to the important command of the Department of Kentucky by the express direction of Mr. Lincoln, and held it some fifteen months, and afterward was on duty in North Carolina until the middle of August, 1866. The idea that a Major-General could disobey an order fro his superior given on the battle-field, and still retain the confidence of Mr. Lincoln, Edwin M. Stanton and George H. Thomas, is so absurd that it is disgraceful te assert it. In 1868 this story was in some form teld when I was a candidate for Governor. It was then treated with contempt by every soldier.

"I hope everybody will understand that I am entirely satisfied with my canvass for Governor. The people of the state gave me an honorable vote. My party without exception supported me with enthusissm."

MR. BLAINE'S QUIET VISIT TO TOWN. James G. Blaine arrived in New-York early yester day, his visit being occasioned by the death of Mrs. W. T. Sherman, who was a cousin of his. He went at once to the Fifth Avenue Hotel, but soon afterward went up to General Sherman's house, remaining there most of the day. In the evening he accompanied th family to the station in Jersey City and saw the funeral party aboard their train before returning to his hotel. He did not see any visitors during the day, although a number of well known politicians called at the Firth Avenue Hotel hoping to see him. He was deeply grieved over Mrs. Sherman's death, and said he did not care to discuss any phase of politics. He appears to be in good health, and will start for home to-day.

MRS. JOHN BIGELOW NOT SERIOUSLY ILL. Mass. John Biolebow Not ShiftOwk! III.

The reports regarding Mrs. John Bigelow's ill health

and was immediately summoned to the lady's presence.
"You see," said Mrs. Bigelow, "that I am not very ill.

SOMETHING ABOUT PLAYS AND PLAYERS.

Lawrence Barrett emphatically denies the rumor that he and Edwin Booth intend dissolving partner-ship. "There is no reason why we should," he said yesterday, "as we have made more money together than we possibly could otherwise. So far as the poor business of our statement of the said yesterday." business of our present engagement is concerned, I don't think it is so poor as it might be. We have averaged a little over \$2,100 a performance up to day and our advance sales promise equally as well for the future. That ought to satisfy any one. And as for Miss Anderson, I think her name ought to have been left out of the story altogether. She is drawing all the money her theatre can hold and her management has too much good sense to incur the extra expense of another star under those circum The whole report is absurd on the face of it. You may say positively that Mr. Booth and myself intend appearing together next season and that we shall give the public a surprise if present negotiations result satisfactorily. A new play? Well, as to that I am not yet prepared to make any statement. Yes, we shall probably appear at the Broadway Theatre next year, though nothing definite in that direction has been decided upon so far. It will be in the fall, however, and not in the spring, as reported."

The attendance at the uptown theatres yesterday was not so large as is usual on matinee days, and a notable feature of it was that the houses were all top heavy"-that is, the balconies and galleries were crowded to the utmost, while the orchestras and dress circles were comparatively light. Downtown, however, the attendance tested the capacity of the theatres in every instance. In the evening it was about the same all around. Apparently the succulent turkey and his environments on the festive board had

great powers of attraction. Host's efforts to advertise "A Brass Monkey" will lose him some of his popularity if he is not careful. Recently he had some bronze plaster-of-Paris monkeys made to put in the cigar stands about town, and now the dealers who have seen the play have conceived the idea that all bad business is attributable entirely to the hoodoo of the monkey. The result is that many of the casts have been cast into the gutter. The

sway of superstition among mortals is still mighty.

One of the chorus girls now singing with the Casino Company in Philadelphia boasts of the name of Miss Frances Folsom. She claims to be a third or fourth isin of Mrs. Grover Cleveland. "The Old Homestead" will play ten weeks in Phila-

Augustin Daly has a new one-act piece in rehearsal to succeed "The Wife of Socrates." The title has not yet been given out.

William Morris and his company will sail for the West Indies on December 8, but Loie Fuller will not go with them. She wanted \$1,500 advance money to buy costumes and Morris couldn't see it in that light.

Nina Boucicault is spoken of as a member of John A. Mackay's new company.

William Gillette's devotion to consistency in dramatic art has led him to engage a genuine Southerner to play the part of the spy in one of his "Heid by the Etemy" companies. The actor's name is H. Fitz-Hugh Owsley, and he is a cousin of General Fitz-Hugh Lee, of Virginia.

THE ROCHESTER MUSIC PESTIVAL Rochester, Nov. 29 (Special).-At last evening's concert, the last of the series, the increased number of listeners was a good sign that the people of Rochester are just becoming aware that they have not properly supported one of the most important musical tertainments with which this part of the State has been favored. The closing concert was a series of delightful surprises. The selections from Gluch's "Orpheus" proved to be most judiciously chosen. Miss Winant did trying work, but was satisfactory, especially in the recitatives and the song, "I have lost their generally prompt attack and few instances of unsteadiness. The criticism, however, in regard to the superiority of the ladies' choir, made Tuesday even-ing, held good last night. Mme. Fursch Madi gave a rformance of the andante and finale from Mendelssohn's concerto in G minor, that he was positively obliged to respond, and played daintily a clever transposition of the scherzo from Mendelssohn's A major with its quaint suggestion of "Yankee Doodle," in the minor, mentioned before in The Tribune closed this interesting concert and rather shabbily-supported

A WELL OF NATURAL REFINED OIL Kittaning, Penn., Nov. 20 (Special).—Farmer Sum-merville, who lives three miles from Brady's Bend, this county, has the most wonderful well in the oil country. He calls it his "little gold mine." The product of this hole has been refined by nature, and as a consequence Summerville sells it to consumers direct. He has a 150-barrel tank built near the pumping-house, and the people of that vicinity purchase his oil and burn it in their lamps just as it comes from the tank. It has been named "natural refined It is equally as well adapted for lamps as the finest illuminating kerosene, does not smoke and has no unpleasant odor. The product is white in color and clear in appearance. Experts say that natural gas aids in the refining process. There is a gas well close to the off-producing hole, and the gas forces the crude petroleum through the sand and gravel some manner yet unknown, and in that way the oil is cleared of refuse matter and made fit for illuminating. The proprietor does a thriving business also in selling samples of the wonderful fluid to strangers. The production is regular, and gives no indication of falling off in quantity.

DETERMINED TO BURN A BIG FLAT.

A fire was discovered early last evening on the roof of the big Astral Fists, the model tenement-house erected by Charles Pratt at Franklin and India sts., in the Greenpoint portion of Brooklyn. It was near the water-tank, and bore evidences of incendiary origin. The fire had not gained great headway when discovered and was speedily extinguished, with a loss of about Many families occupied the building and there could hardly have failed to be loss of life if the fire had extended so as to endanger the inmates. This was the second attempt to set the building on fire this week. The structure is designed to hold over 100 families and cost \$250,000. The income from it is devoted to the support of the Pratt Institute, in Brooklyn.

The three were pedding pointoes on Tuesday. While she was engaged on the top floor, they entered the basement. Mrs. Bohm saw the three men leave the house, and suspecting that they had stolen something, ran after them. They were fleetfooted and soon were out of sight. She then gave up the chase. They fell into the hands of Officer Foley while running along University place, and with the assistance of another officer the three men were marched to the Mercer Street Station House, with the silverware Justice Gorman committed the three thieves for trial in default of \$2,000 ball each.

He used to haul wood. Those were the good old days when a judge and his retinue of the calendar was cleared. On one of his rounds a famous old circuit rider, long since dead, came across a young man with a load of wood for sale, and entering into conversation with him learned that he was poor and a farmer, with aged parents dependent on him. The lawyer saw that the boy was made of good metal and proposed to educate him, offering him at the same time the loan of enough money to keep the old couple from want while he went to school. The offer was accepted. The boy passed through college, became a merchant and after a few years turned his attention to "aliroad specula-

A SCHOOL-TEACHER'S DOUBLE CRIME.

St. Louis, Nov. 29 (Special).-A double tragedy occurred eight miles south of Nevada, in this State, panied by a school teacher ramed Korb, went to Ne vada yesterday and started for home about dark. Korb boarded with the Wray family and he reached the house alone. A younger brother of the girl asked where she was, and in answer the school teacher took the boy a mile back on the road and pointed out the dead body of his sister. Korb told an improbable dead body of his sister. Korb told an improbable story of her death and was taken prisoner by the boy, who was armed. Two hours after the capture of Korb he died from the effects of poison, which he took at the time of the death of his victim. One theory is that he poisoned the girl, whom he had tried to marry, only to be rejected in favor of another teacher named Homer. Marks of strangulation have been found on the young woman's neck.

# MAKING A CROWD OF ONE MAN.

From Science.

A. M. Field has recently recounted his experience under the influence of hasheesh. He smoked the hasheesh until he felt a profound sense of well-being, and then put the pipe aside. After a few minutes he seemed to become two persons; he was conscious of his real self reclining on a lounge, and of why he was there; his double was in a vast building made of gold and marbles, splendidly brilliant and beautiful beyond all description. He felt an extreme gratification, and believed himself in heaven. This double personality suddenly vanished, but reappeared in a few minutes. His real self was undergoing rhythmical spasms throughout his body; the double was a marvelhous instrument, producing sounds of exquisite sweetness and perfect rhythm. Then sleep ensued and all ended. Upon another occasion sleep and waking came so rapidly that they seemed to be confused. His double seemed to be a sea, bright and tossing as the wind brew; then a continent. Again he smoked a double dose, and sat at his table, pencil in hand, to note its effects. This time he lost all conception of time. He arose to open a door; this seemed a million years. He went to pacify an angry dog, and endless ages seemed to have gone on his return. Conceptions of space retained their normal character. He felt an unusual fulness of mental impressions—enough to fill volumes. He understood clairvoyance, hypnotism and all eise. He was not one man or two, but several men living at the same time in different places, with different occupations. He could not write one work without hurrying to the next, his thoughts flowing with enormous rapidity. The few words he did write meant nothing. This experience admirably illustrates the close relationship between states of real

sanity and transitory affections induced by psychic

CURE BY "CHRISTIAN SCIENCE."

THE SAD CONFUSION OF TERMS OF WHICH HEAL-ERS BY FAITH ARE GUILTY.

To the Editor of The Tribune. Sir: This morning's issue of The Tribune names woman in Brooklyn as having been recently cured of an "internal tumor as large as a cocounut and as hard as flint," by "faith." At the same time the cure lawyers went from place to place in the circuit. is credited to the advice of a "Christian Scientist." holding a brief term of court in each district until who called to see the patient, and who asked her "if she knew that God was omnipotent and omnipresent." These words coming to her mind, on waking from sleep, she goes on to say that at the same instant she heard a voice saying. "I do not make you suffer neither do I make stekness"; and that then she knew that she "had touched the hem of God's gaments," for instantly she felt hersell healed. She adds, "I never felt in better condition than now."

But thus to identify cure by "faith" in "the om ipotence and omnipresence of God" with cure by any kind of " science " is both a confusion of thoughts and a contradiction of terms. Cure by science is cure ac ording to known and established physiological laws. ure by faith is cure which comes by God's transcer Cure by faith is cure which comes by God's transcending those laws which He has Himself established (and in exact accordance with which all "suffering" and all "sickness" do come; in answer to believing prayer. That God may not even now, or that He does not even now, give such faith and grant such cure. I do not affirm. But it is an abuse of terms to call it scientific. Without that strict uniformity of law which is the basis of all science, miracle by faith would be impossible of identification and would be without the least practical significance. LITTLE CAUSE FOR THANKSGIVING HERE.

to the Editor of The Irioune. Sir: Thanksgiving week finds one of the poofamilies under my care in great distress. The father, a Republican, was discharged some time ago from the employ of the Street-Cleaning Department. For three months at least he been out of work. With wife and five small children to support the outlook s dreary indeed. I'do not ask for money, greatly as that is needed by the family, for if some one give the father work he will be able to provide for those dependent upon him; this, in my mind, is true charity. CASH OR CREDIT? To the Editor of The Tribune.

Sir: There is a subject on which I should like to learn through your columns the views and experience of other readers of your paper. I am in the habit of paying cash for household supplies where this is possible, and where it is not possible or convenient as for instance, gas-bills, ice-bills and a few others, to pay promptly the first of every month. PARADING THROUGH THE STREETS.

A number of organizations obtained permits for parades and marched through the streets yesterday Many of them were in uniform, made a good appearance. Some of uniforms were striking by reason of their oddity, while a few of the paraders seemed content to march without any special outward display. Among the long list of these bodies were: The Square Back Rangers, of Cherry Hill; the Original Hound Guards the Van Cott Rangers, the Kerrigan Guards, the Irish Volunteers, the Young Americas, the Woodstock Guards, the Dalton Volunteers, the Mission of the Immaculate Virgin. Among other bodies, remarkable chiefly for their expressive names, were such as: The Eagle Guards, the Crystal Guards, the Cannon Mus-leteers, the Gentlemen's Sons of the Eighteenti Ward, the Silm Jim Dandies, the Can't Agrees and ward, the Silm Jill January.

The 60th Regiment marched from their armory in Tompitins Market to the Mission of the Immaculate Virgin, Lefayette place and Great Jones-st., where the service was a requiem mass for their dead comrades.

A MAHOGANY CLUB ROOM.

A MAHOGANY CLUB ROOM.

Prom The Philadelphia Inquirer.

The alterations to the south room in the Union League House have been completed, and the room now is one of the handsomest club rooms in the country, and is certainly unique. The whole interior has been fitted with mahogany. All around the room for a height of 5 feet from the floor the walls have been covered with handsome paneled mahogany, while from the top of the wood to the ceiling the walls have been covered with squares of leather, fastened with sliver-headed tacks. The fireplace has been retiled and the mantelplece removed to make room for two curlously caved mahogany columns, between which is a magnificent piece of polished mahogany. The ceiling has been refrescoed and mahogany beams inserted. With new tables, chairs and furniture of the same wood the room presents a very handsome appearance. It was thrown open to the members vesteriay for the first time.

VIGOROUS MEASURES TO BE TAKEN. PEDERAL CANNON TO AID THE STATE AUTHORI-

TIES-CRUEL TREATMENT OF GERMANS. [BY TELEGRAPH TO THE TRIBUNE.] Baltimore, Nov. 29.-The United States authorities will probably take a hand in abolishing the kidnapping and cruel treatment of unfortunate men who ome the dupes of the heartless syster-dredging captains. United States Marshal Cairnes, in an in terview with a committee from the German Aid So-ciety, expressed his willingness to do all he could to put an end to the cruelty, but said that he must have an armed vessel at his disposal, as he would have a desperate set of men to deal with. A committee from the German society and the Prisoners' Aid So ciety will accordingly go to Washington to-morrow to request that an armed revenue cutter be placed at the disposal of the United States Marshal. human treatment of poor Germans and colored men who innocently become the victims of these Chesapeake Bay robbers, is a greater evil than the illegal Only the Federal authorities can act in the dredging. matter. Escape from one of these boats is almost as impossible as from the Maryland Penitentiary. boats are a good distance from shore. The yawl boats are kept chained. When the captain goes ashere at night he will simply put his men under lock below deck. At night the men sleep without covering. If the police sloops are seen cruising around, the capmen whom he holds in captivity cannot come within calling reach. These vessels do not even land at any wharf for the purpose of sending their oysters up but another vessel known as the supply-boat wil alongside at certain intervals, out in the stream, and take off the cargo of oysters. If the vessels are pursued by the police hoat or by the United States Marshal, and it is known that an attempt will be made to release a particular man, they will frustrate every attempt by transferring the man from one vessel to another. They will even change the number of the vessel or the name. The commanders of these vessels say there is no law upon the Chesaprake."

The mother of Orndorff Karn, a boy of sixteen, has appealed to the German society to save her son, who was enticed aboard a dredger and who, she fears, will be killed. John Howard, another victim, who made news of the poor German woman's boy. Howard says that he and the boy Karn were both duped into signing with a dredging vessel.

We were short-handed," says he, "and because we could not get up the dredges, the captain and mate would swear at us in the most brutal way. I saw the cook choke the boy while he was winding and then knock him down. The boy was still on the boat when I escaped. We were compelled to sleep in the forepeak on rough boards, and the boat would leak, and, of course, we would get wet. Our food was very poor-combread, sodabread and cabbage made the bill of fare. Sometimes we got meat, but that was sel-dom. We started to work at daylight and worked until night, sometimes as late as 10 o'clock. One week before my month was up I told the captain I wanted to go home. He laughed at me and asked what was the matter. I told him I was sick and could not work. The other men also complained about being sick. The captain paid no attention to me. On November 20 I escaped. The captain went home, and the mate and cook went ashore in the yawl boat. Upon repull it on deck. About 4 o'clock in the morning I crept into the boat, cut her loose, and made for shore crept into the boat, cut her loose, and made for shore. I landed on a sandy reef, and after waiking seven miles came to a stream 200 feet wide. I had to swim this, and then I struck the main shore. I was ten miles from the road that leads to Washington. I had al 25, and with this purchased something to eat. After a tramp of five days I reached Washington, and then came to Baltimore.

The State authorities, with the aid of Federal cannon, will deal with the pirates in the matter of illegal dredging, and the United States authorities will compel the rascals to stop the inhuman treatment of their employees.

CAROLINIANS AT THE AUGUSTA EXPOSITION. Augusta, Ga., Nov. 20 (Special).-This was a red letter day at the Augusta Exposition. Ten thousand natives and 25,000 strangers assembled at the Exposition grounds, where the welcoming speech to the visiting South Carolina Legislature was made by Henry W. Grady, and the town to-night is filled to its utmost capacity. The homes of private residents are thrown open to accommodate the thousands of visitors who cannot secure lodging at the hotels and boardinghouses. Senator Colquitt sat upon the stage in Music Hall. Senator Butler, who was to make the response for the Carolinians to Grady's speech, was absent, and his place was filled by Colonel Knex Livingston, whose oration was equal to the brilliant young Georgian's effort. The verdict as to the Exposition, by wds, is that it is the grandest ever held or

A DAY WITHOUT INCIDENT IN JACKSONVILLE. Jacksonville, Nov. 29 (special).—President Neal Mitchell's official bulletin for the twenty-four hours ending at 6 o'clock to-night is as follows: New cases 7: deaths, none; total number of cases to date, 4,687 otal number of deaths to date, 408.

The Board of Health to-day issued a proclamation neging the absentees to wait for a few days, when all narantine restrictions will be removed. The Board quaranthe restrictions will be removed. The board is of the opinion that the business section of the city should be thoroughly purified before the refugees are permitted to return. The action of the Board meets with the approval of the people here. It is believed that within ten days the refugees may return. Thanks giving Day was a quiet affair in this city. Very few teople had turkey and the colored people were thank-ful for a little bacon, grits and hominy.

A MONSTER SILVER MINE.

A MONSTER SILVER MINE.

From The Denver Republican.

Manager Eben Smith, of the Maid of Erin, Louisville and El Paso mines, at Leadville, is in the city and in the best of spirits.

In speaking of the Maid of Erin mine, he says there is no question but that the property has practically 150,000 tons of ore in sight and that the mine will will be able, judging from the present showing, to produce as much daily as it has in the past twolve months, for eighteen months to come. The main shaft is now being sink to greater depth, and is fifty feet below the lowest working level and is penetrating a body of stiphide ore. The one body disclosed in the Maid of Erin is unquestionably one of the largest ever opened in the Lealville district.
